

Slope: Alta, Utah

Slope		Roads by surface type	
	0% - 20%		Paved/Plowed
	20% - 30%		Unpaved/Unplowed
	30% and Greater		Structure
	Town Boundary		Creek
	200 ft. Contour		Lake
	100 ft. Contour		

This map shows the land's slope in and around the Town of Alta (ToA). The ToA generated slope data and contour lines from the National Elevation Dataset (NED). The NED is a 10-meter digital elevation model maintained by the Automated Geographic Reference Center (AGRC).

Data pertaining to roads, structures, ski lifts, and the town boundary was developed by the ToA.

Data pertaining to hydrology was acquired from the AGRC.

This map was produced by Sam Goedecke, GIS Specialist, Town of Alta on 1.31.07.

1:18,000
1 inch equals 1,500 feet
