

# ALTA COMMERCIAL CORE

## Project Open House

More information can be found at: [www.townofalta.com](http://www.townofalta.com)

MONDAY, SEPTEMBER 11TH

4-6PM

Our Lady of the Snows

The Town of Alta is initiating a project to plan for active transportation infrastructure in Alta's "commercial core" along SR-210 roughly between the two Alta Ski Area parking lots. The broad goal of the project is to find ways to make walking and biking around town safer, easier, and more attractive; this could include changes to parking, traffic controls, and pavement striping, for example. **Join us at an interactive open house to learn more about the project and weigh in on preliminary designs.**

Provide comments on our online project survey:
