

7.17.20

Iphone pics of the post office. Couldn't get to the inside but it's pretty small, portions of it are even under the stairwell to the community center/library. That space is accessed by the stairway shown in one of the pics. Not an awful lot of room for mail patrons at the door to the office for buying stamps or picking up packages. Plus that space is used by anyone going upstairs.

Directly behind the boxes is an area of maybe 5' deep to stuff boxes.
