October 4, 2020

Alta Postal Customer,

We want to share an update with you because you are an important part of our community.

On October 3rd the Town of Alta was notified that an employee of the Post Office tested positive for COVID-19. The Town immediately closed the facility until a deep cleaning could be performed. That cleaning was performed by a specialized contractor on October 4th.

The employee wore a mask during their work shifts and maintained appropriate distancing from customers while working. The employee passed the Town's daily health screening, including a temperature check, on Tuesday, September 29th, which was also the most recent day the employee worked. We have been informed that the Salt Lake County Health Department will be evaluating whether contact tracing and notifications need to occur in the Alta Community.

Our goal is, and continues to be keeping our employees, residents, and visitors safe. We felt that sharing this information with you serves as an important reminder for us all to remain vigilant.

Now is a time for each of us to be sure we are doing everything we can to stay healthy. We have taken extraordinary measures in that effort and will continue to follow all recommendations and requirements from local, state, and federal authorities. Please continue to take personal actions, including social distancing, wearing a face covering, washing your hands, report immediately if you are experiencing COVID-19 symptoms or have been in close contact with someone who has tested positive, and continue to support one another.

We will keep the community informed as we learn more about this occurrence.

Thank you,
Mayor Harris Sondak and the Town Staff
